- *Staffing & Salaries:* The FY25 budget includes an allocation for salaries designed to support staffing levels that enhance operational flexibility. This represents the largest budget increase but aligns with positions approved by the Personnel Committee.
- *Commissioner Engagement:* To foster greater involvement from new commissioners, the budget includes funding for commissioner travel. This initiative aims to support in-person orientation meetings, helping integrate new members into IMLCC's vision and operations.
- *Rules on Credit card fees:* The proposed rule change aims to authorize the IMLCC to collect the \$25 annual fee associated with the enhanced physician portal and to pass credit card processing fees on to applicants. The Rules Committee is actively working on this initiative and plans to hold a rule hearing in May.
- *Rules on State Fees:* A discussion was held on the commission's ability to assess fees to participating states. The executive director outlined the current monetary reserves, emphasizing that the IMLCC can sustain operations without the need to impose fees on participating states.

"The waterfall transfer document" was submitted prior to the meeting. The executive director recommended providing a monthly report with bank activity information to streamline the process. Using this approach, the commission will establish goals and objectives for investment opportunities and other bank-related transactions, which the IMLCC staff will then work to achieve.

Commissioner Cleveland highlighted the efficiency of the waterfall approach, which has benefited the IMLCC. However, following discussions with Commissioner Manahan, Treasurer Cleveland proposed changing the Chase IMLC savings funds from a fixed balance of \$200K to a sliding scale model. This approach ensures that the account balance never drops below \$200K, while any surplus is moved to an investment portfolio. The goal is to keep the Chase account under \$250K to comply with FDIC regulations, ensuring the IMLCC remains insured. Additionally, this system aims to redirect any surplus funds into the investment portfolio.

Treasurer Cleveland requested Executive Director Smith and Controller Blanco to review the IMLCC Transfers and Available Cash Policy and include the sliding scale model for further deliberation.

The executive director elaborated on the collaboration with Clifton Allen Larson (CLA) to update the revenue model to better accommodate revenue projections.

The IMLCC IT team is in the final stages of testing the implementation of ACH payments as an alternative payment solution on the IMLCC portal. They are dedicated to having the application operational in the production environment by June 1st

- All IMLCC restricted reserve accounts are now in held by separate banks in the amounts that are fully protected by the Federal Deposit Insurance Corporation (FDIC) limits.
- The IMLCC now has four CD accounts, 2 of which will mature in a period of 12 months while the other two will mature in 18 months.
- These are investment/broker issued accounts which have features that differ from traditional, publicly available CDs.
 - The accounts are liquidated upon maturity and a new CD will need to be purchased, i.e., the CDs do not automatically roll-over; T
 - The accounts have “coupons” that are redeemed for interest payments earned on the CD. The interest payments are redeemed, and the funds placed in the IMLCC’s Money Market account. The interest is not re-invested into the CD.
- A new money market account is now open for IMLCC restricted reserve accounts. This account is a holding account where interest payments, additional restricted funds, and matured CD amounts will be held pending the purchase of additional CDs. The revenue and expense numbers are favorable to the budget, showing an overall positive position. The quorum had no questions or concerns related to the P&L.

GENERAL DISCUSSION

The executive director provided an update on the savings bank diversification project, stating that all agreements with New York Life Brokers have been signed. The IMLCC will be investing over one million dollars in certificates of deposits in banks that are FDIC (Federal Deposit Insurance Corporation) insured. All money sitting in our restricted savings accounts will be moved to the investment account, leaving a balance of five hundred dollars (\$500.00) in each restricted account. New York Life will be negotiating the best interest rate on behalf of IMLCC with hopes of obtaining between 3% and 4% over the current certificate of deposit rates.

In addition, a general discussion was held on Commissioner Cleveland's question from our last meeting:

- Should the money sitting in our restricted accounts be transferred to our investment account (stock market), and is there a need for the IMLCC restricted accounts in the first place? Is there a need for an update or removal of the FDIC policy requirement? Commissioner Cleveland elaborated on these questions and the feedback was as follows:

In light of the recent bank-related events that the country has experienced (Silicon Valley Bank Collapse), it is in the best interest of the organization to keep our savings in FDIC insured banks in addition to maintaining FDIC-insured requirements for IMLCC bank activities.

The FY2024 budget file was submitted before the meeting. The executive director asked for a motion to approve the FY2024 executive director's expending authority of \$6,773,608.05. A motion by Commissioner Slaughter (DE) was seconded by Commissioner Koenig (KY) to approve the director's expending authority. The motion passed unanimously.

COMMISSIONER COMMENTS

Commissioner Cleveland informed the committee about possible changes in our license applications process that could secure the financial future of the organization. These changes include adding ACH as a method of payment in addition to current available credit card options. He discussed how these changes can minimize credit card fees that IMLCC has incurred as part of daily operations, as well as how the addition of other methods of payment for licenses can enable savings in the future.

The executive director is currently exploring this idea with the technology committee and more information will be shared as soon as it becomes available.

ADJOURNMENT- NEXT MEETING

The committee adjourned at 3:40 PM Eastern. The next meeting is scheduled for April 18, 2023 at 4:00 PM Eastern.

A draft meeting agenda was presented.

The agenda was approved by a unanimous vote.

APPROVAL OF MINUTES

The draft minutes from the January 17, 2023, meeting was provided prior to the meeting. No corrections were needed. A motion by Slaughter (DE) seconded by DeLeon- WA to adopt the amended minutes. The motion passed unanimously.

FISCAL UNIT UPDATE

The Transfer and Investment report was provided prior to the meeting. All bank transactions are in accordance with the committee instructions.

An update of the FY2022 audit was provided. Controller Blanco is meeting with CL auditors every week to discuss open items, provide support and answer questions. It is expected that the audit report will be provided by the auditors by the second week of March 2023.

An update of the unaudited FY2023 November P&L financial documents was provided by Controller Keyla Blanco. A general discussion was held of the information provided. The revenue and expense numbers are within expectations and budget, showing an overall positive position. The quorum had no questions or concerns related to the P&L.

GENERAL DISCUSSION

The bank diversification project was discussed. The executive director met with our investment management firm, New York Life Brokers, and learned about a process by which the money sitting in our restricted accounts (approx. 1,000,000.00) could be placed in a brokerage account that would be marketed to different banks. These banks would provide us with four or five Certificates of Deposit that would be FDIC (Federal Deposit Insurance Corporation) insured. The intention is to have at least one account maturing every quarter and to have the IMLCC staff monitoring the money attributable to each account. This process would comply with IMLCC policies with the intention of protecting restricted funds. In return, two (2) to four (4) percent more interest could be gained since New York Life Brokers is able to demand a larger interest rate. Due diligence is being exercised by New York Life Brokers, as they are ensuring that IMLCC is in compliance with the USA Patriot Act and other regulations. The process is ready to start.

Commissioner Cleveland emphasized that this process with the New York Life Brokers is a great short-term solution, but he is urging the rest of the committee members to ponder the following questions:

- What should we do with this \$1,000,000.00? Should the money sitting in our restricted accounts be transferred to our investment account (stock market), as it may benefit from better returns (more than what the CDs are offering)?
- Is there is a need for the IMLCC restricted accounts? Since these accounts were created at the begging of IMLCC operations and have served their purpose, do still need them?

FY2023 Budget Adjustments – The executive director provided an explanation for the FY2024 budget request. A general discussion was held on the budget file and how numbers flow from the budget file to the Profit and Loss statement, with specific examples. The director also elaborated on the usage of the revenue model and how it would be utilized for revenue and expense projections (best and worst scenario) In addition he elaborated on the total expending authority for FY2024.

The Final draft of the FY2024 budget will be presented at the March 2023 meeting.

BUDGET COMMITTEE MEETING OCTOBER 12, 2021 - NOTES

Commissioners Present: Farrelly, Silas, Lefkowits, Cleveland, Judd, deLeon

AGENDA

1. Discuss September and YTD P&L results.
2. Status update on FY2021 financial audit (Did not cover).
4. Status update on IMLCC Pricing study.
5. Status update on comparative analysis for credit card processing services (Stripe vs, competitors).
6. Identify finance & accounting discussion items to cover at the Annual Meeting in November.

TECHNOLOGY SPEND MEMO

Executive Director addressed the memo he plans include as part of the IMLCC November Commission meeting agenda requesting:

1. An Increased FY2022 Spending Authority, and
2. Authorization to expend funds from the restricted Reserve Fund.

Commissioner de Leon and Judd requested that the memo include a discussion of what items and issues have been raised by state board members and staff regarding needed enhancements to the CRM system. The memo should also include a definition of the some of the included acronyms (SPL, LOQ, etc.). We also need to mention that the IMLCC has the funds to purchase the Gold option. Commissioners Lefkowits and Cleveland support the Gold option for the system enhancements.

P&L DISCUSSION

A discussion of variances of Budget versus Actuals for FY22 was had for the following items:

1. Legal and professional services – most of the legal expenses budgeted for the year are expected to be incurred in the first quarter of FY22. This is an anomaly of having these costs annualized for budget purposes.
3. Administrative Services Contractor - this was higher than budgeted because temporary-to-hire contractors are paid for through Express Employment Services. Once contactors accrue 720 hours of work with IMLCC, an offer of employment may be extended to this contractor. Express also does all the vetting of these candidates for this process.
4. Wages & Salaries – this was lower than budgeted since hiring candidates are temporary employees for over 3 months. They do not receive wages from the IMLCC until then.
5. Office Supplies & Equipment – this actual expense is higher than budgeted because all new employees and contractors need computers, monitors and desks.
6. Conference Expenses – Most of these expenses are expected to incurred in 1st and 2nd quarter of FY22.

This application activity analysis shows the impact that renewals have on the profit margins for the IMLCC. With higher percentages of renewals occurring now, the margin of profit decreases because the IMLCC only makes \$25/renewal transaction.

STATUS UPDATE ON FINANCIAL AUDIT FOR FY 21 (Not Covered on Call)

1. All financial information has been entered into our accounting system.
2. We have preliminary financial statements prepared
3. We are completing an analysis of all internal controls. This is a much bigger task in FY21 since this year we went from 0 employees in 2020 to 7 employees in 2021, 2 office locations and greater infrastructure costs and investments. Payroll and employee issues in particular are areas in which CLA is expected to focus considering time reviewing since the tax and employee liabilities are typically a critical area for most companies.
4. We are also addressing issues raised in FY20 audit regarding the separation and segregation of duties related to the recording, reviewing and payment of expenses.
5. Overall, we're about 4 weeks from having all information ready to hand over to CLA.

PRICING STUDY STATUS UPDATE

1. IMLCC is engaged CLA to provide data analytics consulting services.
2. The expectation is that based on information they are obtaining from the FSMB and our internal application fees and application information, they should be able to complete a detailed revenue analysis will first help us to confirm the reasonableness of the IMLCC pricing structure for application services. Then it is expected that the analytical structures that CLA is developing will help us to better forecast revenues from the difference service offerings into the future. For

example, we are seeing a trend in our application data that indicates a significant drop off in net income for months that are more heavily weighed to renewal activities rather than those months which have a more even distribution of LOQs, renewal and license applications.

3. IMLCC will host status update calls with CLA every two weeks starting Friday Oct. 8
4. IMLCC working with FSMB to provide physician population and licensing information by state, for CLA to include in their study. There is a data protection agreement between our organizations.

CREDIT CARD PROCESSING FEE COMPARISON

Earlier this year IMLCC contacted credit card processing vendors to compare processing fees costs relative to our current vendor Stripe. In order to utilize real data for the comparative analysis, IMLCC applied the proposed processing fees to 6 months of actual data. Here are the results of that analysis:

	Dr Payments	Stripe Fees	Elavon Fees	Heartland Fees
Fees	\$5,158,695.70	\$152,193.88	\$117,398.25	\$104,715.84
Savings \$			\$34,795.63	\$47,478.04
Savings %			23%	31%

2021 ANNUAL MEETING

As part of the preparation for the Committee Day discussion and budget committee presentation, Todd will prepare a listing of possible discussion topics and send them to the other committee members for comments and additions.
