### BOARDERLESS HEALTHCARE & EMERGING CENTERS OF EXCELLENCE

Interstate collaboration democratizes access to care for patients. It also expands research and learning opportunities for medical professionals. We're seeing new interstate centers of excellence emerging – enhancing access to physician mentorship in specialized areas of care.

### EXPANDED OPPORTUNITIES

Multi-state licensed physicians create more opportunities for patient care. Rural & underserved areas benefit through access to more physicians in urban areas & in neighboring states.

### REDUCED ECONOMIC BARRIERS TO CARE

Collaborative care reduces travel costs which disproportionately affects patients in remote and underserved communities.

### *Coming Soon* – ENHANCED PHYSICIAN PORTAL & DELEGATE ACCESS

Patients. Not Paperwork. Physicians can now offload time-consuming licensure administration. Delegates can manage the application process, renewals, and update credentials so physicians spend more time on patient care and less time managing licensure.
